The University of Arizona
## Campus 360 Web Map
Quick Start Guide (Version 1.0, April 2018)

Map Overview:

- Open Layers Tab
- Open Search Tab
- Open Tools Tab
- Open Help
- Site/Location Menu
- Authenticated User Login
- Map Zoom In/Out
- Refresh Map
- Clear Map
- Open Basemap Options
- Track Location

Feature Search:

Search | Query

Search layers...

Search Options

- ☑ Primary UA Destinations
- ☐ Streets
- ☐ UA Attractions & Landmarks
- ☐ Landscape Information
- ☐ UA Projects and Construction
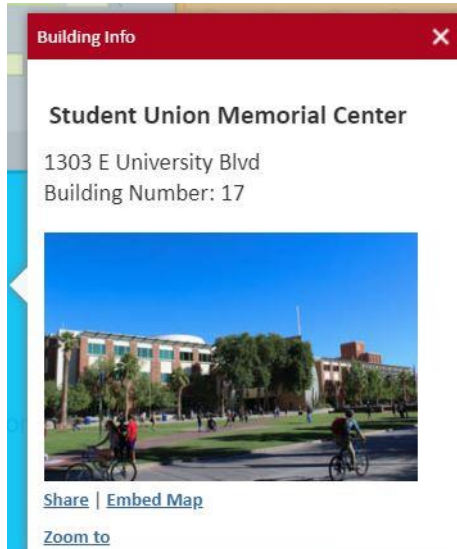

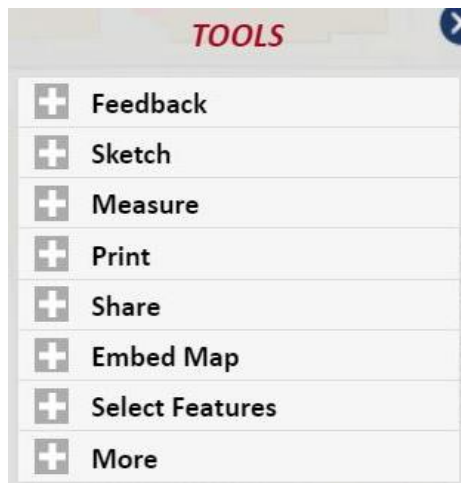

To quickly find a building, street, project, landmark, etc., the search functionality of Campus360 will help you locate it. The default search (Primary UA Destinations) searches through Buildings, Major Athletic Sites, UA Sites Statewide, Parking Lots, and Outdoor Destinations

Pop-Up Information:

Some features such as buildings, trees, parking lots, etc., have pop-ups with information associated with them. Clicking on a feature will open the pop-up.

Tools:

Popular tools include **Sketch** (to draw attention to areas on the map), **Measure** (x,y, length, & area), **Print** (generates a PDF/PNG of the current view of map, **Share** (creates a link for others to see the customizations the user has set).

Table of Contents Layers:

Campus360 has a wide selection of different layers that can be viewed on the map. Below is an example of a layer in each category to provide reference for other types of layers you may be looking for.
